# Bathmaster Sonaris™

## The Bathmaster Sonaris Bathlift. Bathing made easy

- Optimum comfort, support & safety
- Superb performance
- Simple to operate
- Easy to assemble, install & transport
- Extensive range of accessories

### Ultimate comfort

Designed with a contoured seat and backrest for the most comfortable bathing experience. Optional covers enhance the bathers' comfort.

### Effortless operation

Large, textured control pads require only a light touch to operate the Bathmaster Sonaris.

### Simple to install

Two lightweight components simply click together for quick and easy assembly, installation and removal.

### Easy to transport

Each component features convenient holding points for easy transportation and the unit folds flat for convenient storage.

### Optimum safety

A built in safety mechanism ensures the Bathmaster Sonaris will not lower if there is not enough charge to raise the bather, and the adjustable sucker feet ensure stability.

### Peace of mind

An audible bleep and warning light identify when the battery needs charging, helping to ensure the battery is always charged when needed.

### Optimum battery performance

Up to 18 lifts from each charge. The battery features an automatic sleep function after 10 minutes of inactivity. It is simply reactivated by pressing the control pad.

### Increased confidence

The smooth, steady action, including an interval between reaching the bottom and reclining, allows the bather to maintain control, increasing confidence and security.

## One of the lightest reclining bath lifts available

The Bathmaster Deltis is easy to assemble with no technical knowledge required. With built in convenient holding points and the heaviest part weighing just 6.8kg (15lb) transport and storage become effortless. The all plastic construction is modern, easy to clean and free from corrosion.

## Compact frame fits virtually all bath tubs

Occupying the optimum amount of space, the compact frame of the Bathmaster Deltis is suitable for nearly all bath tubs, yet maintains a high level of stability when in use. Large side flaps allow easy transfer in and out of the bath, and optional swivelling seats are available.

## Latest battery technology ensures high performance

The small, lightweight hand controller is simple to use and floats when not in use, enabling easy recovery if dropped into the water. The lithium ion batteries have no memory effect and very low self-discharging, giving improved performance and battery life. A full recharge can be completed within an hour.

## Three year guarantee giving peace of mind

With a three year guarantee against defects in materials or workmanship, the user can be reassured that the bath lift will be in full working order when they need to use it.

## Aquaflex®

Weighted Vaginal Cones

### What is Aquaflex®?

Aquaflex is a clinically proven Pelvic Floor Muscle Exercise System consisting of two cones and a set of weights. It has been designed to help improve your pelvic floor muscle tone.

If you accidentally leak urine when you laugh, cough, sneeze or exercise, you may be suffering from stress incontinence and this could be caused by weak pelvic floor muscles. If you exercise and strengthen your pelvic floor you can regain control!

### It's easy!

By using this simple and easy to use device for just twelve weeks, the inconvenience of those embarrassing leaks could disappear forever!

09 125 3673

£28.50

### How does Aquaflex® work?

It is important to exercise your pelvic floor muscles correctly. The Aquaflex Cone is inserted the same way as a tampon and causes the pelvic floor muscles to automatically contract around it. It is this reflex that tones the muscles.

As your pelvic floor becomes stronger you will be able to add more weights and increase the time you are able to keep the cone in place, for up to 20 minutes a day.

CLINICALLY  
PROVEN TO  
REDUCE STRESS  
INCONTINENCE

## Educator®

Pelvic Floor Exercise Indicator

### What is the Educator®?

The Educator is a simple lightweight and easy to use pelvic floor exerciser that will help you understand and strengthen your pelvic floor.

### Correct Exercise

One of the main problems women experience when first attempting pelvic floor exercises is knowing whether they are doing them correctly. Many women think they are doing these exercises correctly when in fact they may not be. For pelvic floor exercises to help reduce the symptoms of urinary incontinence it is vital these exercises are performed correctly.

09 125 3707

£15.00

### How does the Educator® work?

The Educator's unique design follows the movement of the internal wall of the vagina, allowing you to see how your pelvic floor muscles are being contracted. If you contract your pelvic floor muscles and the indicator moves downward, you can be sure you're performing the exercises correctly. It's as simple as that!

Even if you can already do pelvic floor exercises, the Educator can assess your technique and monitor your improvement!

### IMPORTANT

Do not use Aquaflex or Educator if you are pregnant, during your period, if you have a prolapse or vaginal infection.

## The Hydrant Drinking Aid

Being unable to reach a drink without calling for help is frustrating and can lead to dehydration. The award winning Hydrant is a breakthrough drinking aid - designed to give those with limited mobility a way to increase independence and reduce the chance of dehydration, it allows the user to drink whenever they want to without assistance.

The Hydrant system is a 1 litre water bottle, a unique, one piece, cap/handle/clip, a drinking tube with a bite valve and a small clip to attach the tube to clothing if required. The bottle is hung from the bed, chair or wheelchair and the user simply takes hold of the tube, inserts the bite valve between their lips then bites and sucks. The bite valve opens under pressure and closes when released so there is no leakage. Dishwasher safe

## RiJe Dysphagia Cup

The RiJe Dysphagia Cup is designed for people suffering with difficulty swallowing or requiring pre-determined dose of liquid. It is also ideal if you have a limited range of head, neck and arm movement. The portion size can be pre-set to any size from 3ml to 15ml to provide an accurate consistent delivery.

The cup automatically dispenses a limited portion of liquid each time it stands in its upright position. Once the portion is withdrawn and the cup is placed in an upright position again, it delivers another portion within 2-3 seconds.

The RiJe Cup benefits from large ergonomic handles for a secure grip and a good nose cut for easy drinking without tilting your head back. It can be used with water-like or light nectar thickened liquids (approximately the viscosity of maple syrup). Dishwasher safe and suitable for use with warm and cold drinks.

## Sucup Care Feeding Aid

NEW

The Sucup is a unique feeding aid designed to help people restore their independence by enabling them to feed themselves rather than being spoon fed.

The innovative vacuum based design allows the user to feed themselves easily by gently sucking on the straw or by applying gentle pressure on the mouthpiece. Sucup is spill proof and hygienic as food is not exposed to the atmosphere. It can also be used in any position without spilling. The graduated marks on the side are useful for monitoring food intake.

## Easy to use

- Fill with your choice of food
  - Pop in the piston and straw
  - Clip on lid
  - Use by sucking on the straw or by gentle pressure – or a combination of both
  - The Sucup is dishwasher safe but the straw should be washed by hand only.
- The Sucup can be sterilised using a proprietary sterilising fluid. Suitable for use in a microwave. Capacity 400ml.

## Vital Plate

Stylish yet functional – an elegant solution with a hidden feature. This tasteful melamine plate is an innovative alternative to food bumpers or inner lip plates. It has inclined base that allows food to collect on one side making it easier to scoop food onto a fork or spoon. A non-slip ring on the bottom of the plate prevents it from sliding and provides additional hold and safety. Height 40mm. Diameter 260mm. Weight 470g.
